

RST_{TEK} [Roll Slitting Machine]

[MachineDescription]

RST_{TEK} - Fabric roll cutting machine with powerful inverter driven blade and fabric rotation, simple and easy material cutting on a linear slide motion and built in blade sharpener.

A strong yet simple material bar holding mechanism with a built in unique internal tube clamp and back to basic simple to use controls make this machine an asset to any mattress manufacturer.

MATTRESSTEK machines are designed to be maintenance friendly. Mechanical and electrical assemblies can be easily replaced and simply plugged in, reducing the need for an electrical / mechanical technician.

All MATTRESSTEK machines are designed, manufactured and built at our premises in the UK, by our team of experienced fabricators and machine builders.

Prior to shipment all machines are meticulously tested and trialled on customer samples.
