

BMC TEK

[Mattress Border Cutting Machine]

[MachineDescription]

The **BMC Tek Border marking and cutting machine** is a fully automated piece of machinery with a manual operation mode built in for bespoke cuts, testing or maintenance purposes.

Designed to mark and cut a range of material widths depths and lengths, this includes materials up to 300mm wide, 50m long and an uncompressed height of up to 35mm.

This makes the operating process easy and efficient with low maintenance and can mark the border material, measure out your desired length of your chosen material and provide a fast and effortless guillotine cut.

We offer a comprehensive project management service supplying a full factory visualisation, tailored electrical controls, and bespoke machines to achieve the best possible solutions for all industries.

MATTRESSTEK are focused on high performance, only using leading suppliers and high-quality components to reduce downtime and improve efficiency.

MATTRESSTEK machines are designed to be maintenance friendly. Mechanical and electrical assemblies can be easily replaced and simply plugged in, reducing the need for an electrical/mechanical technician.

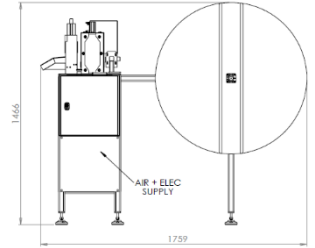

All MATTRESSTEK machines are designed, manufactured and built at our premises in the UK, by our team of experienced fabricators and machine builders.

Prior to shipment all machines are meticulously tested and trialled on customer samples.

For more information on any of our products please call 01282 479922 email us at: sales@mattresstek.co.uk or visit us at: www.mattresstek.co.uk

SERVICES AVAILABLE

- Technical Support Installation and Setup
- Bespoke Machine Designs
- Maintenance
- Parts
- Hardware Support
- Warranty and Lifetime Support

- Can be added onto any existing lines and facilities
- High quality specialised non-marking conveyor belt
- Efficient, reliable, robust
- Can be used on taped and non-taped products
- Low noise
- Full factory automation project management service available
- Full electrical control circuit project management
- High quality sensors and pneumatics
- Fully CE certified
- Suitable for batch processing and includes run-off and cut sensors

MACHINE TYPE	HEIGHT	FRAME LENGTH	WIDTH	WEIGHT
BMC Tek	1466mm/57.7"	1751mm/69.3"	1237mm/48.7"	

ELECTRICAL REQUIREMENTS - 240V/SINGLE PHASE + NEUTRAL/16AMP

AIR REQUIREMENTS - 80 PSI/5.5 BAR
